

Over 100 #MuslimBanStories

In the two years since President Trump's Muslim Ban went into effect, countless families have been needlessly separated, people have been denied access to lifesaving medical treatments, children have been denied their parents and grandparents, and people have missed the births, deaths, weddings, and funerals of loved ones.

Here are over 100 of their stories. Many of them are American citizens who live across the nation and are needlessly separated from their families.

Little Rock	AR	Yemen	Mohammed Al-Awadhi came to the U.S. in 2007 and is an internal medicine physician at a hospital in Little Rock, AR. His wife Rasha had her visa interview in Djibouti in Dec. 2017. Rasha was living in Sanaa at the time, and the nearby airport was no longer functioning. Despite having rheumatic heart disease and unreliable access to medicine, Rasha traveled for one month across risky desert borders and airline layovers in three different countries in order to get to Djibouti for the interview. Consular officers told her she would be granted a visa, but, when she returned to pick it up a few weeks later, they informed her it must be denied because the Muslim Ban had gone into effect. They were then told a waiver had been granted, but then received no response from the embassy.	https://www.washingtonpost.com/national/coveted-waivers-for-trumps-travel-ban-remain-elusive-for-citizens-of-muslim-majority-countries/2018/05/22/d48cc8d8-48b6-11e8-827e-190efaf1f1ee_story.html
